WARRANTY INFORMATION

Information provided with respect to CEP products is based on testing and data believed to be accurate; however, the reliability of that information is not guaranteed. All sizes in this catalog are nominal. Pad thickness is measured at time of manufacture and used for comparative reasons.

Disposal.
Fluids absorbed by CEP products will not be rendered less hazardous, less toxic, or less flammable and, when absorbed, will remain in their original state. Therefore, handle, store, and dispose of CEP products after use with the same caution as you would the original fluid. Products must be disposed of in compliance with local, State and Federal regulations. Because various fluids absorbed may be of a toxic or hazardous nature, CEP does not recommend disposal procedure.

Exclusion of Warranties.
CEP products are sold **without implied warranty of merchantability or fitness for particular purpose, and excluding** all other warranties, expressed or implied.

Damages.
CEP is not liable for damages of any type (whether direct, consequential, incidental or special) arising out of or in connection with, the manufacture, sale, delivery, handling or any other use of CEP products. CEP's only obligation is to replace any CEP product proved to be defective.

Thank you for taking the time to read through Complete Environmental Products (CEP) new environmental and safety products catalog. We feel it solidifies our place in the market as the supercenter for spill and emergency response products.

One of the reasons we are proud of this new catalog is our detailed cover. Please take a moment to really look at these graphic images of CEP products in action. CEP has played a major role in the cleanup efforts during the Gulf of Mexico oil spill, providing over 10,000,000 feet of sorbent boom and hundreds of truckloads of safety products. However, the best story is seeing our boom defend an island of nesting pelicans against approaching oil or workers protecting our beaches with CEP pads, coveralls and drums. These photos capture the true essence of our entire product line proving their necessity and relevance in protecting people, businesses and even ecosystems.

Since 1994, CEP has helped thousands of distributors grow their businesses by providing the most innovative environmental products on the market. From serving the largest integrated suppliers down to the local one man shops, CEP has provided solutions for all environmental and safety needs. We realize our partners deserve only the best. Therefore, we represent only the strongest vendors in the industry, with the highest quality products. We continue to take pride in being the only sorbent manufacturer that produces under the ISO quality management system.

Our employees are dedicated to personal attention and quality customer service. Call our Customer Service Center at 800>444>4237 and talk with an experienced person, not a machine. Feel free to visit our website at www.cepsorbents.com. As you tour the store and catalog, please note how many NEW products we have to offer. In short, we are the master distributor your purchasing agent has been waiting for.

Thank you for your business.

CEP-OPP15	Universal Absorption Pads with Citrus Fragrance	15" x 15"	85/cs

HQ HIGHEST QUALITY

CEP ONLY

ORANGE POWER!™

UNIVERSAL ABSORPTION PADS
PADS WITH CITRUS FRA-GRANCE

BUILT IN DEGREASER

Completely Safe! Orange Power™ is non-toxic, non-hazardous, and non-flammable. Real anti-static protection that leaves no residue and is low linting. These easily rinsed and reusable towels perform like cloth.

Tackles isopropyl alcohol, MEK and other tough solvents without falling apart due to its powerful solvent resistance.

Superior wet and dry cleaning performance.

High intrinsic surface per unit mass of fiber providing excellent dirt pickup.
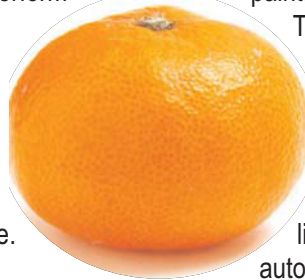

Orange Power™ high capacity absorption pads effectively remove general dirt and grime, greases, some inks, tar, asphalt, oils, lubricants, water-based paints, industrial carbon and other heavy-duty soils. The formula leaves your hands smelling clean and fresh.

This disposable, soft, high strength pad is ideal for cleaning hard, non-porous surfaces and can be used anywhere including, but not limited to, industrial manufacturing facilities, auto shops, aviation facilities, medical offices, hospitals, hotels, schools, day care centers, restaurants, nursing homes, correctional facilities, etc.

ABSORBS UP TO 25X ITS WEIGHT IN LIQUID!

CEP has a variety of oil only sorbents for all industrial maintenance needs.

- Drip Pans for continuous leaks, Drum Top Pads for lubricant sprays, and Static Resistant Sorbents for highly flammable liquids.

CEP Sorbent Sweeps are ideal for marine spill fine sheen removal.

CEP

POLYPROPYLENE OIL>ONLY SORBENT BOOM

SAVES YOU MONEY **HQ HIGHEST QUALITY**

Product Code	Description		
CEP-B510	Oil Only Sorbent Boom	5" x 10'	4/cs
CEP-B810	Oil Only Sorbent Boom	8" x 10'	4/cs

This unique product , available in both 5" and 8" diameters, absorbs considerably more petroleum-based liquids than other poly boom. It has identical usage applications and each section is made with a durable sock and netting.

We can offer this special sorbent boom to you at a better price than the pure poly alternative. More absorption at a lower price? YES!

Features/Specifications:
- Oil only (for petroleum-based liquid)
- Non-toxic
- Non-shedding
- Durable sock and netting
- Absorbs more liquid than pure poly boom
- Rope and snap clips for easy deployment

RAPID RESPONSE CONTAINMENT BOOM

CEP ONLY

Product Code	Description	
CEP-8RD15	Rapid Response Containment Boom	150 ft

- Revolutionary containment boom stored in a convenient drum
- MYCELX infused products instantly attach to fuel, sheen & oil
- Virtually zero water dragout
- Easy storage and deployment - connect multiple drums together for extendability
- Storage container minimizes space and doubles as a disposal drum
- Prevents weathering and separation of pollutants on contact
- Each 10 ft. section capable of absorbing 28 pounds of oil or fuel

150' of extendable containment boom quickly dispenses
from its storage container to encircle spills

OPFLEX

NEW

Product Code	Description		
OPXNB	Opflex Netted Boom	144", 1/2" Strips in Tubular Netting	4/pk
OPXSNARE	Opflex Snare Boom	98" X 36", 1/2" Thickness	5/pk
OPXSWEEP	Opflex Sweep	72" X 12", 1/4" Thickness	100/pk
OPXPAD	Opflex Pads	16" X 18", 1/4" Thickness	100/pk

- Absorbs up to 32 times its weight in oil while water flows through it.
- Biodegradable
- Reusable
- Open celled polyolefin foam, density 1.5 lbs. per cu. ft.
- Not designed or intended to replace all conventional booms.
- Designed to be used in conjunction with all other products.

Product Code	Description		
CEP-OP1250	Oil Zap Pad	17"x23"	150/CS
CEP-OP2442	Oil Zap Pad	24"x42"	40/CS
CEP-OPR-9200	Oil Zap Roll	Perforated	1 Roll (133 pads)

- Eliminates shop rags.
- Quick absorption.
- Absorbs one-half quart of oil.
- Pad will withstand hot oil up to 210 degrees.
- Needle-punched for strength.
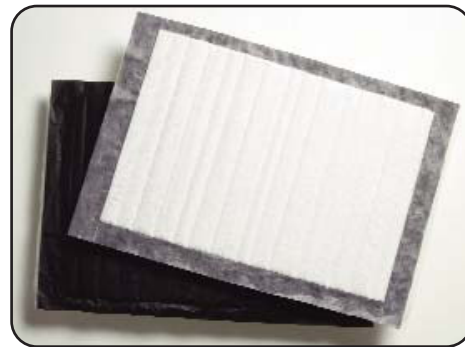

OIL>ONLY DRIP SENTINEL DRIP PAD

Product Code	Description		
CEP-5694-YE	Drip Sentinal Drip Pad	21" x 21"	1/cs

- Oil only (for petroleum-based liquids)
- Great for oil changes, lawn, farm and garden equipment
- Absorbs and retains up to 7 quarts of liquid
- Non-slip barrier envelope that helps capture the spill
- Nominal size: 21" x 21"
- Drip catching surface: 13.5" x 13.5"
- Optional grommet and 3-foot nylon tether (not shown)

HQ HIGHEST QUALITY
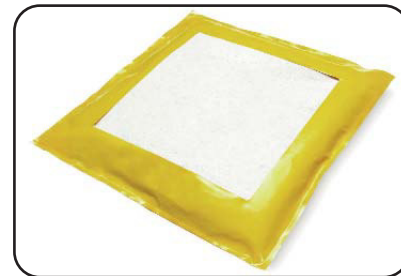

Simply throw down the Drip Sentinel Drip Pad under leaky equipment and watch as it absorbs and retains up to 7 quarts of liquid (oils and hydrocarbons).

RAILROAD PETROLEUM SORBENTS

Product Code	Description	
CEP-PRRTB18	Track Blankets	19" x 100´
	60 Gallons, 2 Rolls	
CEP-PRRT59	Track Blankets	59" x 100´
	90 Gallons, 1 Roll	

- Three layer construction for durability.
- Protects railroad ties, soil and rock ballast.
- Ultrasonic welded edge won't tear or shred, prevents delamination.

- Applications
  - Locomotive refueling sites, ready track areas, maintenance/repair yards/ships, wayside track lubrication sites.

For additional railroad products reference page 53

RAIL BERM

Product Code	Description
CEP-45-RSB-FS	Rail Berm, Portable Spill Containment

NEW

This new light weight containment pad is deisgned to provide a temporary bermed containment area around the valves underneath a rail tank car during loading/ unloading operations. Light weight (only 80 lbs) it can be easily lifted into place by two operators!

Function: The berm provides a 4'x4' x12" H bermed area that sits in the void between the tracks directly under the valves; should a large release occur, caputred product would begin to fill this berm; the spilled product would then be directed over the outside rail to a side compartment 4'x18"x12"H. This outside compartment is fitted with two 2" drains that include male CAM-LOC fittings for quick coupling of system to hoses that can transport the spilled materials to a nearby catchment area.

LEAK CONTROL PATCH KITS

Product Code	Description
KIT-A-1	Offset T Patch Kit

Universal leak control kit has components to repair punctures, cracks, gashes or surface rotting of all containers. Additionally, this new kit will allow you to patch some holes that previously were more difficult, such as cracks close to the edge of tanks or supports, and cracks that toggle winds will not fit into. All necessary tools and hardware are included.

KIT-WPS	Wedges, Putty & Stop-it kit

Leak patch kit includes, lead wool, plug rug, premix putty, wooden wedges and dowels, fix stix and stop it pipe repair system.

At last a functional collection of the most proven and commonly used components for emergency and temporary leak stoppage of liquid or bulk hazardous materials due to puncture, gashes, cracks or surface rotting in most of the common containers- drums, cans, tank trucks and cars, automobile gasoline tanks and storage tanks.

These kits are designed for temporary control until the container can be disposed of properly.

CHEETAH SORB

Product Code   Description

CEP-TS20   Cheetah Sorb Absorbent   20 lb. bag

Give your oil absorbent "Cheetah Power!"

Many new oil absorbent technologies have come and gone. The #1 reason for market failure is simple: Price! Traditional clay based absorbents are dusty, dirty, absorb very little, and have respiratory drawbacks for the low price of the bag.

Introducing CHEETAH SORB! The first new oil absorbent that is dust free, highly absorbent, incinerable, and…priced like floor dry! Cheetah Sorb even looks like floor absorbent, without the harmful silica. Don't make price be the reason you handle the most cost consuming absorbent in the market. Lower your handling costs and

Cheetah Sorb   the only industrial
    floor oil absorbent you ll need!

SPHAGNUM PEAT MOSS ABSORBENTS

Product Code	**Description**	
CEP-PEAT2-P	Peat Sorb	3 cu. ft. bags
CEP-PEATSOCK4	4"X4´	20/cs.
CEP-PEATSOCK8	4"X8´	10/cs.
CEP-PEATSOCK10	2"X10´	20/cs.

The CEP organic heat treated peat moss is a hydrophobic, biodegradable granular that absorbs 15 times its weight in hydrocarbons. It contains less than 5% moisture, making this one of the best absorbents on fine sheens or concrete stains.

Peat moss is non›toxic and all
            natural.

CEP-VASH25	Volcanic Ash Safety Sorbent	25 lbs. bag
CEP-SAFETYSORB	Volcanic Ash Safety Sorbent	2 1/2 lb. carton

HQ HIGHEST QUALITY

This safety sorbent maintains the highest anti-slip or non-skid characteristics of all sorbents. The volcanic ash rock creates a natural surface to plant floors. The product is also ideal for vapor supression. Packaging is in a 25 lb. bag and in 2 1/2 lb. cartons.

```
  Volcanic ash rock creates a natural surface to plant
 floors. Don t slip and fall, use this line of CEP sorbents!
```

OPTISORB

Product Code	Description	
OS25	Oil Absorbent Granulars	25 lb.

NEW

Optisorb Premium Oil Absorbent is an all purpose absorbent designed for the quick clean up of water, oil and grease. Made from diatomaceous earth, a naturally occurring mineral with superior absorption ability, this high quality product delivers **50% more absorbency** per pound than clay alternatives. Optisorb Premium Oil absorbent is available in a leak-resistant, moisture proof poly bag. Medium granulars.

```
          100% Natural Mineral
          100% Moisture Free
        Environmentally Friendly
  Provides more absorption for your money
        Easy to use and transport
```

FLOOR DRY & DIATOMACEOUS EARTH

$ SAVES YOU MONEY

Product Code	Description	
CEP-DEARTH25	Diatomaceous Earth	25 lbs. bag

These traditional clay based absorbents are still very cost-effective absorbents for industrial plant every day spills. The granular mesh size creates a safe non-slip work area. 50 bags per pallet.

GATOR ABSORBENT

Product Code	Description	
CEP-GATOR30	Oil Gator	30 lbs. bag

- Gator absorbent has an absorbent powder match for any liquid.
- Oil Gator is ideal for hydrocarbons.

KENAF ABSORBENTS

Product Code	Description	
CEP-KENAF2	Bio-Sorb	2 cubic ft. bag
CEP-KENAF3	Organic	2 cubic ft. bag

The Kenaf Bio-Sorb granular absorbent has indigenous oil eating microbes that solve many long-term spill disposal solutions. The product is all natural, non-toxic, and

DRY BIO REMEDIATED

CELLULOSE & VERMICULITE

Product Code	Description	
CEP-CELU18	Cellulose	20 lbs. bag
(see CHEETAH SORB on page 28)		
CEP-VERM4	Vermiculite	4 cubic ft. bag
CEP-COB20	Corn Cob	20 lb. bag

These recycled fiber sorbents are ideal for solidification, packaging, and incineration. The high BTU and low ash content of cellulose and cob fibers are excellent for fuel blending which can save in disposal costs.

NEW

CEP

ENVIROSALV
Poly Salvage Drum Plus

Detail image of Lock Down Clip

Lock Down Kit (1295-LK) is available as an Optional - lockable, serialized, identification security system when accountability matters most.

Lock Down Kit adds an identification feature to account for hazardous material from point A to Z.

Engineered shoulder design allows workers and material handling equipment to move drums with ease.

X-Base Technology lets you close unit easier with 2x4's or an available substrate.

UN certified and DOT approved.

4-Point Locking System provides added security by "locking" stacked salvage drums.

Newly designed castellations allow for easy twist-down closing using available substrate or 2x4 standing on it's side or laying flat.

New ribbed construction offers added strength.

Patents Pending - Globally

Advanced sealing technology features crush-resistant seal.

X-Base Technology

Easy, secure stacking.

4-Point Locking System

DISPENSING>POLY>RACKER SYSTEMS

Product Code	Description	
CEP-6000-YE	Poly-Racker™	49" x 52.5" x 22.5"
CEP-6002-YE	Poly-Stacker™	49" x 41" x 13"
CEP-6003-YE	Poly-Shelf™	17" x 22" x 17.5"
CEP-6010-YE	Mini-Racker™	31" x 29" x 15"
CEP-6012-YE	Mini-Stacker™	31.5" x 19.5" x 18"

Poly-Racker™
- The centerpiece of the system is a unique, one-piece polyethylene rack that holds two 55 gallon drums securely in place.

Poly-Stacker™
- Combine a single Poly-Stacker with the Poly-Rackers to stack up to four drums. Add another Poly-Stacker and you have a storage system.

Poly-Shelf™
- Easily attaches to a Poly-Stacker and allows simultaneous dispensing from all drums.

Mini-Racker™
- Mini-Racker holds (2) 5 - 6.5 gallon metal or plastic lidded pails or cans. The Mini-Stacker™ adds an extra level or storage.

In stock for immediate delivery!

DISPENSING>RACKER/STACKERS

$ SAVES YOU MONEY

Product Code	Description	
CEP-6004-YE	Multi-Purpose Racker/Stacker™	48.5" x 41" x 20"

Racker/Stacker™
- One holds up to two 55 gallon drums.
- Stackable so you can double up to provide storage for four 55 gallon drums.
- Unit can be placed on floor (no sump) or on the Poly-Slim Line 6000 pallet.
- Forkliftable.

POLY SLIM LINE 6000 PALLET – CODE 5400YE, SEE PAGE 42

DISPENSING>SINGLE DRUMS

CEP-6006-YE	Single Poly-Racker™	31" x 53" x 32"
CEP-6007-YE	Single Poly-Stacker™	31" x 40.5" x 20"
CEP-6005-BK	Poly-Racker Well Liner™	12.75" x 15.5" x 2.5"

Single Poly-Rack System
- Consists of separate single Poly-Racker, single Poly-Stacker, Poly Well Liner and Poly-Shelf.
- Poly-Stacker allows for stacking of second 55 gallon drum.

This system holds 1,600 lbs.

THE MINI>RACKER SYSTEM

MINI-RACKER
Part No. CEP-6010-YE
Dimensions: 31"Lx29"Wx15"H
124cmx133cmx57cm
Weight :12.5lbs/454kg
Load Bearing Capacity: UDL: 200lbs/1350kg
Sump Capacity: 8gal./387.6 liters
Regulations: EPA 40 CFR 264.175, SPCC and NPDES.

The new Mini-Racker system is ideal for storage and dispensing of small containers with built-in spill protection and patented enclosed sump. The system has a mobility option to make movement in the plant environment safe and easy too.

MINI-STACKER
Part No. CEP-6012-YE
Dimensions: 31.5"Lx19.5"Wx18"H
124cmx133cmx57cm
Weight: 10lbs/454kg
Load Bearing Capacity UDL: 100lbs./1350kg

The Miini-Racker Stacker System consists of the base Racker that will hold two (2) 5-6.5 US gallon metal or plastic lidded pails or cans, or two (2) 5 US gallon or smaller metal or plastic "jerry cans". The Racker version is available in two (2) versions: a "place and use" version (CEP-6010-YE) and a mobile version (CEP-6011-YE-M) that includes wheels and handle.

- Available with optional Bucket Shelf for either or both sides – catches small leaks or spills during dispensing.
- Grates are easily removed for quick clean-up.

Meets EPA Containment and SPCC Regulations for Two IBC Tanks.

ULTRA>MODULAR IBC SPILL PALLETS

In Door Pallets	Description	Dimensions:	Gallon Capacity	Weight
CEP-1125	2-Tank Model	186" x 62" x 8 1/2"	280 gal.	310 lbs.
CEP-1126	3-Tank Model	248" X 62" X 8 1/2"	355 gal.	435 lbs.
CEP-1127	4-Tank Model	279" x 62" x 8 1/2"	365 gal.	531 lbs
CEP-1128	5-Tank Model	310" x 62" x 8 1/2"	375 gal.	625 lbs.

Weight Capacity: 9,000 lbs. UDL per Pallet
Required accessory: CEP-1118 - Assembly Kit (Includes hole saw, arbor and set of (2) Tightening Tools
Option for Indoor Models:
CEP-9630   Spill Pallet Only

Outdoor Models	Description	Dimensions:	Gallon Capacity	Weight
CEP-1165	2-Tank Model	126" x 93" x 79"	280 gal.	881 lbs.
CEP-1166	3-Tank Model	188" x 93" x 79"	355 gal.	1258 lbs.
CEP-1167	4-Tank Model	250" x 93" x 79"	365 gal.	1603 lbs
CEP-1168	5-Tank Model	312" x 62" x 79"	375 gal.	1948 lbs.

Weight Capacity: 9,000 lbs. UDL per Pallet
Required accessory: CEP-1118 - Assembly Kit (Includes hole saw, arbor and set of (2) Tightening Tools
Option for Outdoor Model:
CEP-9658   Extender Kit -
Options for Indoor & Outdoor Models:
CEP-1117   2" Bulkhead Fittings (Set of 2)
CEP-1124   Expansion Tank Only, 61" x 31" x 12 1/2", Capacity: 65 gallons, 30 lbs

- New Ultra-Modular IBC Spill Pallets provide low cost spill containment for multiple IBC tanks. Standard offerings include: 2-tank, 3-tank, 4-tank and 5-tank indoor and outdoor models. In addition, components may be purchased separately to allow users to "build-your-own" configurations for indoor models.
- Each IBC tank sits on a heavy-duty spill pallet that offers a Uniformly Distributed Load Capacity of 9,000 lbs. Each of the low profile spill pallets has a containment capacity of 75-gallons and measures 62" x 62" x 8.75"H.
- To increase containment capacity, a 65-gallon capacity Expansion Tank is available. "Flow-through" bulkhead fittings (1.25-inch diameter) are used to connect spill pallets and Expansion Tanks together. This patented feature allows spills to be channeled throughout the containment system, thereby "borrowing" containment capacity from adjacent spill pallets and Expansion Tanks.
- Any number of the modular spill pallets can be connected together with the bulkhead fittings. Two (2) bulkhead fittings are used to connect one pallet to the next.

- Connecting an Expansion Tank to a spill pallet also requires two (2) bulkhead fittings. Bulkhead fittings are included with each 2-, 3-, 4-, or 5-tank model. Once five (5) or more spill pallets are connected together, the total containment capacity is 375 gallons minimum and does not require use of an Expansion Tank to meet the spill containment regulations.
- Optional Extender Kits (Part# 9658) provide for the addition of another compartment to Outdoor Models. (1 tank per Extender Kit).
- Ultra-Modular IBC Spill Pallets are constructed of 100% polyethylene, eliminating the potential for rust and corrosion. They offer excellent chemical resistance to a broad range of chemicals including acids, solvents and oils.

Secondary Containment

TWIN IBC HARDTOP

Product Code	Description	
CEP-1148	No Drain	128" x 67" x 96"
CEP-1149	With Drain	128" x 67" x 96"

• Unique, lockable, dual-closure allows quick access to tanks.
• Roll-top covers can be easily lifted for routine visual inspection.
• Swing-out doors provide safety and convenience for loading/unloading tanks.
• Safely stores IBC tanks, with maximum dimensions of 52" x 52" x 61"

Upper roll›top door and lower swing›out doors combine to allow easy and convenient access to IBC.

UTILITY TRAYS

Product Code	Description
CEP-1031	12" x 48" x 4 3/4"ID
CEP-1032	24" x 48" x 4 3/4"ID
CEP-1033	30" x 48" x 4 3/4"ID
CEP-1034	24" x 36" x 4 3/4"ID
CEP-1035	36" x 36" x 4 3/4"ID
CEP-1036	40" x 48" x 3 1/2"ID

Ribbed bottom keeps cans, pails and other containers elevated above any spills or leaks.

SPILLBERM PLUS

Product Code	Description
CEP-2054	5´ x 4" x 4 1/2"

• Taller SpillBerm helps contain or divert larger volume spills
• Flexible polyurethane
• Non-absorbent and chemical resistant
• Easily cleans with soap and water
• Multiple units can be quickly and easily connected

LEAK DIVERTERS

Product Code	Description	
CEP-1780	Pipe Leak Diverter	18" x 18"
CEP-1785	Roof Leak Diverter	5´ x 5´
CEP-1787	Roof Leak Diverter	10´ x 10´

KEEP LEAKS OFF FLOORS!

- Keep fluid leaks off the floor - eliminate slip hazards and chemical exposure.
- Large 18" diameter opening captures overhead leaks, big and small.
- Bottom fitting connects to a standard garden hose.

- Allows fluids to be collected in a drum or tank.
- Rugged coated vinyl construction.
- CEP-1780 Pipe Leak Diverter ships complete with bungee cords and hooks for quick installation.

TANKER TOURNIQUETS

Product Code	Description	
CEP-2000	Magnetic Model	15 3/4" x 32 1/4" x 3 1/4"

Magnetic Model
- 8 magnets.
- Spark resistant assembly for use on steel surfaces.

Minimize environmental damage, protect lives and save the load!

DRUM TOURNIQUETS

Product Code	Description	
CEP-2010	Magnetic Model	22 1/2" x 6 1/2" x 2 7/8"

Magnetic Model
- 2 magnets.
- Spark resistant assembly for use on steel drums, other ferrous applications.

Universal Model
- 2 magnets.
- Spark resistant assembly.
- 10´ long ratchet setup.
- Use on steel drums, polyethelyne and fiber drums.

Both models have stainless steel backing plate.

DECONDECKS
Product Code

CEP-TACTICAL MODEL – DCON-6000
CEP-HOSPITAL MODEL – DCON-6010
CEP-NON-AMBULATORY MODEL – DCON-6020

DOMESTIC DISASTER PREPAREDNESS

TACTICAL MODEL – DCON-6000
• Replaces conventional containment pools — contaminated water is captured in deck sump and attached 55 gallon bladder.
• Deck and bladder capacity is 99 gallons.
• Use for chemical, biological, and/or radiological response.

HOSPITAL MODEL – DCON-6010
• Privacy shelter quickly attaches to DeconDeck.
• Supply hose and shower unit provided — warm water supply required.
• Dual bladders and deck combine to contain 165 gallons of liquid – nearly one hour of continuous use.

NON-AMBULATORY MODEL – DCON-6020
• Elevated deck allows contaminants to be separated from workers and patients.
• Includes hose and spray wand.
• Deck and bladder contain 88 gallons.
• Replacement bladders – Product Code CEP-2320.

Manufactured with your choice of bracketed sidewalls, pop-up sidewalls or drive thru endwalls, the versatile Econo-Berm can be customized for the most taxing of containment applications, including: roll-off containers, tanker trucks, frac tanks, decon wash pads, emergency response, drum storage and portable pumps. Its easy-to-install, pop-up design is ready to use in minutes, UV- and chemical-resistant, flexible, lightweight and dependably durable. Optional accessories-like a protective ground cover, track guard and hose support bridge-ensure complete investment protection.

LOWEST PRICED BERM IN THE INDUSTRY.

BAZOOKA TRICKLE FILTER W/AUTOMATIC SHUTOFF

Product Code	Description	
CEP-BAZOOKA	Imbiber bazooka, 5" O.D. x 12" L	8 lbs.
CEP-BAZOOKA-12 KIT	Bazooka plus installation kit, 5" O.D. x 16.5" L	10 lbs

Introducing an exciting new product, The Imbiber Bead Bazooka! It's an automated shut off system which allows water drainage of containment berm applications, but also utilizes an innovative system for detection of Class I & II organics such as diesel fuel. Water will continually drain through the filter. But, in case of a spill within a berm when an organic substance is detected, the Imbiber Bead Technology takes over , and the flow is completely shutoff. It's a virtually maintenance free design with very simple upkeep.

- Trickle filter allows water flow rate of 20 gallons per minute.
- Unique Imbiber Imbicator pre-filter signals presence of organic susbstance with a distinct color change.
- Imbiber Beads inside capture the organic substance, and by doing so, shut off flow through the filter.
- Virtually maintenance free.

Bazooka Installation Kit. The kit contains all you need for an easy field installation of the Imbiber Bead bazooka, and can be completed in just minutes.

PLUG>IT

Product Code	Fits Drain Sizes	Plug Size (top diam/bottom diam)
CEP-PI-22	1.5 - 2.5 in.	3 inch/ 1 inch
CEP-PI-33	2.5 - 3.5 in.	4 inch/ 2 inch
CEP-PI-44	3.5 - 4.5 in.	5 inch/ 3 inch
CEP-PI-66	5.5 - 6.5 in.	7 inch/ 5 inch

Plug the drain as a safety precaution. The Plug-It can be used where there is almost no room between the top of the drain and the floor grate. Put PLUG-IT in the drain. cut to the height to fit and put the grate back on.

RESPONSE PLUG

Product Code	Fits Drain Sizes	Plug Size (top diam/bottom diam)
CEP-RP-2	1.5 - 2.5 in.	3 inch/ 1 inch
CEP-RP-3	2.5 - 3.5 in.	4 inch/ 2 inch
CEP-RP-4	3.5 - 4.5 in.	5 inch/ 3 inch
CEP-RP-6	5.5 - 6.5 in.	7 inch/ 5 inch

Response Plug - for floor drains - allows normal drainage, yet immediately plug the drain if a hazardous spill occurs. Simply put the Response Plug into the drain and put the grate back on. It is designed to float up and allow routine wash water to flow through. If a hazardous spill occurs, just take the plastic push rod, or a screw driver or pencil or other handy tool and slide it through the grate to push the Response Plug down into the drain. Immediately seals off the drain. Works with fuels, oils and many chemicals. Neoprene blend and plastic – will not spark.

Spill Control Platforms: Heavy-gauge steel construction holds up in applications where plastic units just won't do, either for durability reasons, or when materials being stored are not compatible with plastic. Welded steel bar grating is removable for easy clean-up. Drip Channels "hook" units of same heights together, help prevent drainage between units. Optional Ramps available in 2 heights. All models help you comply with EPA and OSHA requirements; models with 66 and 99 gallon capacity help you comply with Uniform Fire Code.

PASSIVESKIMMERS

Product Code	Description	
CEP-9260	Ultra-Passive Skimmer	2 per box
CEP-9261	Ultra-Passive Skimmer	5 per box

• Floats on water surface, absorbs oil.

• Fits most catch basins, sumps, vaults and holding tanks.

Helps comply with NPDES, 40 CFR 122.26
(1999)

CURBGUARDS, INSERT>STYLE

Product Code	Description	
CEP-9760	Insert-Style CurbGuard	Fits 24" – 42" Inlets
CEP-9761	Insert-Style CurbGuard	Fits 42" – 66" Inlets

• Two heavy-duty tension rods keep unit secured inside inlet
for a clean, flush-mounted installation.

• Filtering material is quickly and easily replaced.

Helps comply with NPDES 40 CFR 122.26.
For use in drains with curb inlets only.

DC-42AR	42" 17 lbs

Drain protector II: The DrainProtector II is a NEW reversible product. The pad is constructed of a solid tacky urethane product with no fillers that delivers a tough, durable seal using either side. Due to its lighter weight, it can be used quickly for emergency chemical spills.

The Economy Drain
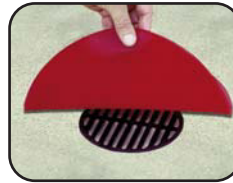

ULTRA GUTTER GUARD PLUS

Product Code	Dimensions	Weight
CEP-9151	6"H x 6'L	10 lbs.
CEP-9158	6"H x 9'L	13 lbs.
CEP-9154	6"H x 12'L	16 lbs.
CEP-9159	6"H x 15'L	20 lbs.
CEP-9148 Counterweight*	14"L x 1 1/2" dia.	7 lbs.

Guard High-Flow Curb Inlets From Silt, Sediment And Other Contaminants

* One counterweight pouch for 6' GutterGuard Plus. All other sizes have two pouches.

• Designed for curb inlets with high-flow volumes.
• Unique, multi-dimensional outer filter combined with rigid inner frame maintains a low profile to prevent damage from vehicular traffic.
• Modular, 3-foot, inner frames allow for compact transport and storage.
• Counterweight inserts into inlet to keep unit upright and secure (Optional 7 lb. weight available)

• Tie-back straps on either end of unit can be used with sod pin or stake for additional anchoring.
• Can be easily cleaned and reused.
• Helps comply with NPDES, 40 CFR 122.26 (1999).
• Sizing note: When ordering allow 12" overlap on each side of curb inlet.

ULTRA OIL & DEBRIS BLOCKER

Product Code	Description	Dimensions	Weight
CEP-9380	8" Center Opening	4 1/2" x 12" x 14"	4 lbs.
CEP-9381	10" Right Opening	5 1/2" x 14" x 16"	6 lbs.
CEP-9382	10" Center Opening	5 1/2" x 14" x 16"	6 lbs.
CEP-9383	10" Left Opening	5 1/2" x 14" x 16"	6 lbs.
CEP-9384	12" Center Opening	6 1/2" x 16 3/8" x 18"	7 lbs.
CEP-9386	10" Adapter	9 1/2" x 10" x 12"	2 lbs.
CEP-9387	12" Adapter	11" x 12" x 12"	3 lbs.

Stop Pollutants Before They Can Reach Stormwater Outflow

• Stormwater is forced to flow through bottom of unit — floating trash and hydrocarbons remain on the water's surface and out of the outflow.
• Installs quickly and easily in storm drain outflows.
• Low-profile allows vactor trucks to clean catch basin without removing the unit.

• Dual component, all-polyethylene unit will not rust or corrode.
• Helps comply with NPDES, 40 CFR 122.26 (1999) and TMDL requirements.
* One counterweight pouch for 6' GutterGuard Plus. All other sizes have two pouches.

CEP
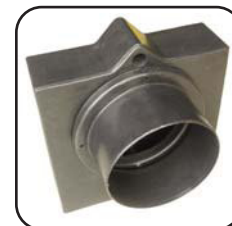

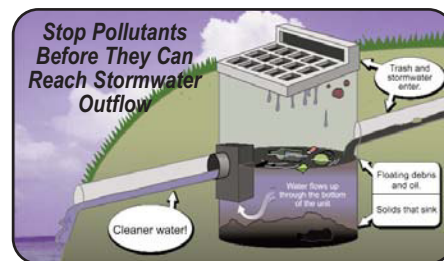

DOWNSPOUTS AND GUTTER GUARDS [fi]

Product Code	Description
CEP-9315	Down Spout Guard
CEP-9316	Refill for the Down Spout Guard

- Special "X-Tex" oil-absorbing material removes oil, grease and other hydrocarbons from gutter and downspout waterflow.
- Quick and easy to install on most downspouts.
- Filter material is easily removed and replaced.
- Polyethylene construction will not rust or corrode.

Remove pollutants from stormwater flow in gutters and downspouts.

ULTRA CURB GUARD PLUS

Product Code	Description
CEP-9248	Ultra Curb Guard Plus Dimensions: 4" dia. x 36"L
CEP-9251	Ultra Curb Guard Plus Dimensions: 4" dia. x 48"L

- Quick and easy installation.
- Modular design — build to any length.
- 3' long units can be quickly and easily connected to form longer lengths.
- Wedge-shaped, heavy-duty foam secures unit in curb inlet.
- Woven, polypropylene material provides high flow rate — will not cause ponding or flooding.

Protect Curb Inlets From Sediment-Laden Stormwater Runoff

ULTRA GRATE GUARD PLUS

Product Code	Description
CEP- 9130	Ultra-GrateGuard Plus, fits drains up to 48" x 59"

- One size fits all.
- Installs quickly and easily with included hardware — grate does not need to be moved or lifted.
- Rugged, polymer components will not rust or corrode.
- Built-in overflow port eliminates ponding and flooding during major rainfall events.
- Woven polypropylene construction provides superior strength and durability.
- Available for standard street drains and combination drains (street drains with curb inlets).

Keep Dirt And Sediment Out Of Storm Drains With Easy-To-Install Ultra-GrateGuard Plus

ULTRA>INLET GUARD

NEW

- Keeps dirt, sand, sediment, trash and debris out of drains.
- Quick and easy installation using built-in magnets — no more lifting of heavy catch basin grates.
- Available in several sizes for street drains and combination drains. Custom sizes also available.
- Heavy-duty, reinforced material allows up to 192 gal/ft2/min. through drains.
- Low maintenance — simply remove unit, shake off excess dirt, silt and sediment and put back in place.
- Low-profile design can be driven over and is unobtrusive to traffic and personnel.

Protect Drains and Inlets WITHOUT Lifting Any Grates

CEP

ULTRA DRAIN GUARD, RECYCLED MODEL

Product Code	Description	Dimensions	Weight	Performance
CEP-9378	1-Pack	48"L x 36"W x 18"H	1 lbs.	Oil - Up to 1.26 gallons Sediment - Up to 40 lbs.
CEP-9379	10-Pack			

- Made completely out of X-Tex material — 100% recycled content.
- Superior water flow rate (151 gal/ft.2), together with built-in overflow ports prevents ponding and flooding.
- X-Tex material captures silt and sediment from runoff in addition to absorbing hydrocarbons.
- Quick and easy installation — simply lift catch basin grate, lower DrainGuard in place, and replace the grate.
- Helps comply with NPDES, 40 CFR 122.26 (1999) and TMDL requirements.

STORM SENTINEL ADJUSTABLE CATCH BASIN INSERT

Product Code	Description
CEP-1340	Trash, Sediment & Debris, round 27" to 29"
CEP-1341	Trash,Sediment,Debris, rectangular 16"x20" to 28"x36"
CEP-1342	Non leaching hydrocarbon packet
CEP-1343	Trash, Sediment, Debris, Oils, Hydrocarbons, round 27" to 29"
CEP-1344	Trash,Sediment, Debris, Oils Hydrocarbons, rectangular 16"x20" to 28"x36"
CEP-1340-TD	Trash & Debris, Round 27" to 29"
CEP-1341-TD	Trash & Debris, Rectangular 16"x20" to 28"x36"
CEP-1341-TD-XL	Trash & Debris, Extra large up to 42"x42"
CEP-1341-XL	Trash, Sediment & Debris, up to 42"x42"
CEP-1344-XL	Trash, Sediment, & Debris,Oils, Hydrocarbons, extra large up to 42"x42"

The Storm Sentinel Drain Protection Inserts help companies comply with Stormwater Pollution Prevention Plans and Stormwater Best Management Practices by protecting your storm drains and catch basins. It's the sure way to catch oil and sediment headed into your storm drains and sewers. Equipped with an oil absorbent media in a screened bag, the Storm Sentinel guards against any potential discharge.

- Up to 500 GPM overflow rate helps avoid ponding.

- Requires no special tools to install.

NEW

STORM SENTINEL ADJUSTABLE CURB INLET INSERT

Product Code	Description
CEP-1346-TD	Trash & Debris
CEP-1346	Trash,Debris & Sediment
CEP-1346-OH	Trash, Debris, Sediment, Oils & Hydrocarbons.
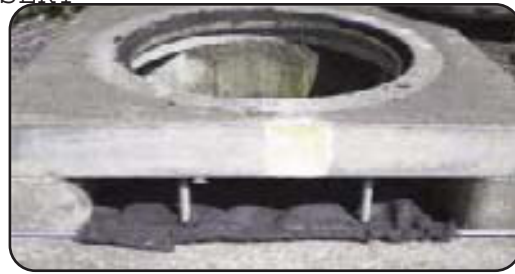

The Storm Sentinel™ Adjustable Curb Inlet Insert was designed and engineered to perform to the same demanding test requirements as our award winning Catch Basin Insert's above. You can now have the same high quality inserts for Curb Inlet situations. Adjustable to fit curb inlet openings from 24" to 30" wide.

GREAT FOR USE IN:
- **Industrial facilities**
- **Construction sites**
- **Parking lots**
- **Drive-up retail facilities**

DRAIN DAM

Product Code	Description
CEP-1345	Drain Dam, 15"x4"x4", 2/pkg
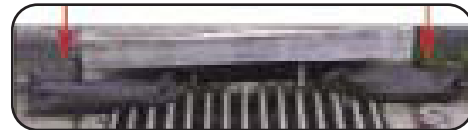

Redirect water into catch basin while absorbing some hydrocarbons.

ULTRA FILTER DECK

Product Code	Dimentions	Weight	Weight Capacity
CEP-9368	74 1/2"L x 50"W x 5 1/2"H	90 lbs.	9,000 lbs.
Option			
CEP-9369	Replacement Filter Media for Ultra-Filter Deck (Box of 3)		

- Heavy-duty polyethylene units use X-TEX® material, a high performance oil absorbent, below removable grating to remove oil, grease and other hydrocarbons from stormwater runoff.
- Ports are located in base of units to drain off clean stormwater.
- X-TEX® roll of absorbent is quickly and easily removed and replaced.
- Excellent for use underneath dumpsters, grease collection tanks, outdoor machinery or equipment.
- All-polyethylene construction will not rust or corrode.
- Helps meet Stormwater Management Regulations.

DRUM PUMPS

Product Code   **Description**

CEP-HANDPUMP22   PETROLEUM HAND PUMP
PVC Stroke pump for petroleum, polyurethane valves, buna-n-seals, reinforced vinyl hose. Do not use with hot liquids. Not UL-Listed. Fits steel drum 2" NPS, 3´ long hose, 1 1/4" D hose. Ship wt. 5 lbs.

CEP-PUMP-P50PX   ECONO DRUM & PAIL PUMP
Polypropylene/polyethylene construction.Exceptional resistance to corrosive chemicals, non-flammable solvents. Fits 2" and 3/4" NPS, 16 oz. per stroke. Not recommended for chlorinated products. Fits 5-55 gallon drums. Tube must be cut to fit 15 or 30 gallon drums. Ship wt. 2 lbs.

CEP-PUMP-BR150   HIGH OUTPUT PISTON PUMP
Durable diecast aluminum housing, s/s liner and piston shaft. Easy grip, lockable handle, telescoping suction tube fits 15-55 gallon drums with 2" NPS bung. For petroleum based liquids, UL-Listed for flammables, up to 20 gallons per 100 strokes. Includes a 5/8"x8´ hose with an imbedded static wire and an aluminum nozzle. Ship wt. 15 lbs.

CEP-PUMP-P60P   LEVER ACTION POLYPROPYLENE DRUM PUMP
Handles viscous liquids up to 12,000 cPs, delivers 10 ounces per stroke. Unique lever-action pumps up to 6 gallons per minute, handles liquids equivalent in viscosity to SAE90 oil. Telescoping suction tube adjusts to fit 15-55 gallon drums. Fits 2" NPS bung. Self venting spout rotates 360 degrees for versatile dispensing. Not for use above 125 degrees F or with heated drums. Ship wt. 4 lbs.

CEILING PANELS WITH A DRAIN

Product Code	Description
CEP-IB2x2	2' x 2' Ceiling Panel
CEP-IB2x4	2' x 4' Ceiling Panel

1. Simply replace an existing 2' x 2' or 2' x 4' acoustical ceiling panel with the patented drain panel.
2. Attach the enclosed drain hose with our clips and ties to your ceiling.
3. Direct any leak as far away as 25 feet. (This patented system can be used again and again.

Unsafe floor conditions, damaged equipment and unhealthy mold deposits are just some of the headaches caused by ceiling leaks. This patented system quickly and efficiently replaces an existing leaking acoustical ceiling panel and allows you to easily direct leaks as far as 25 feet away. The panel allows you to avoid an unattractive appearance and wasted time while protecting your equipment, floors, facility, staff and customers from ceiling leaks.

PORTABLE DECON WASTE POOLS

	Product Code	Description		
1	CEP-DP-6	Decon Pool	62"ID x78"OD	85 Gal. Capacity
	CEP-DPP-96	6´ Pool Ground Pad		
	CEP-DPH-20	6´ Pool Retention Hose		
2	CEP-DPI-5	Inflatable Collar Wash Pool w/Case	5´Dia x 13"High	120 Gal. Capacity
	CEP-DPI-8	Inflatable Collar Wash Pool w/Case	8´Dia x 13"High	307 Gal. Capacity

QUICK & EASY TO DEPLOY

DECON CONTAINMENT BERMS

Product Code	Description	
CEP-DBI-1414	Std. Duty Inflatable Sidewall Decon Berm	14´ x 14´ x 7"D
CEP-DBI-1426	Std. Duty Inflatable Sidewall Decon Berm	14´ x 26´ x 7"D
CEP-DBI-1640	Std. Duty Inflatable Sidewall Decon Berm	16´ x 40´ x 7"D

• Standard Duty 10 oz. PVC.
• Also available in Heavy Duty 32 oz. PVC.

INFLATABLE
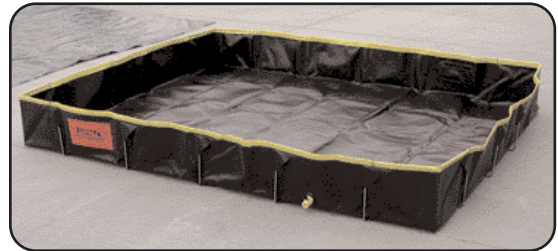

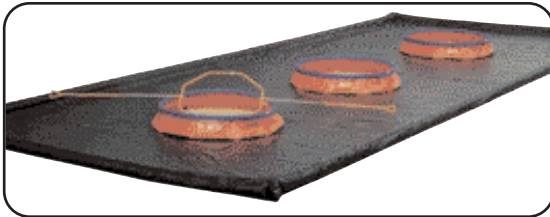

ENCLOSED DECON WASTE TANK

Product Code	Description	
CEP-TEWT-110	Enclosed Waste Tank	110 Gal.
CEP-TEWT-150	Enclosed Waste Tank	150 Gal.
CEP-TEWT-300	Enclosed Waste Tank	300 Gal.
CEP-TEWT-600	Enclosed Waste Tank	600 Gal.
CEP-TEWT-1200	Enclosed Waste Tank	1200 Gal.
CEP-TEWT-1800	Enclosed Waste Tank	1800 Gal.
CEP-TEWT-2500	Enclosed Waste Tank	2500 Gal.

HQ HIGHEST QUALITY

100-2,500 GALLON STORAGE CAPACITY

28 oz. PVC coated rip›stop woven fabric.
Ideal for potable and non›potable water storage.
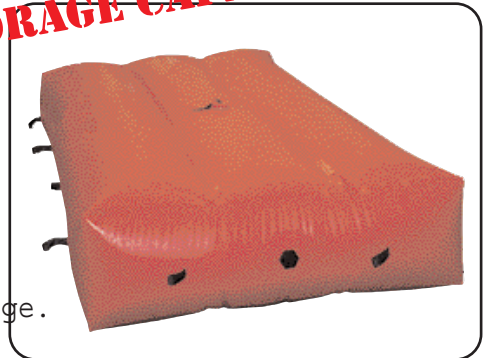

DECON › U › SHOWER

Product Code	Description	
CEP-DU-50	Portable DeCon "U" Shower includes bag	52" x 52" x 7´6"H Assembled Size

Containment pool sold separately.

• Output 6.33 GPM @ 30 PSI
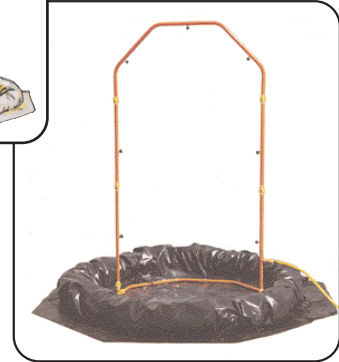

DISPOSABLE DECON SHOWER & AIRLOCK SYSTEM

Product Code	Description	
CEP-DCON3	3-Room System: Clean, Shower and Equipment Room	37" x 37" x 77"
CEP-DCON3XL	Extra Large 3-Room System: Clean, Shower and Equipment Room	43" x 48" x 81"
CEP-DCON2	2 Clean and / or Equipment Rooms	37" x 37" x 81"

Low › cost, durable and disposable.

Poles and shower nozzles sold separately.

DECON SPRAY HOOPS

Product Code	Description	
CEP-DH40	DeCon Spray Hoop 2 Pieces	45"OD x 39"ID Two 43"-66" Extendable Handles
CEP-DH40-4P	DeCon Spray Hoop 4 Pieces	45"OD x 39"ID Two 32"-53" Extendable Handles
CEP-DHSB4	Storage Bag for DH40	
CEP-DHSB44	Storage Bag for DH40-4P	
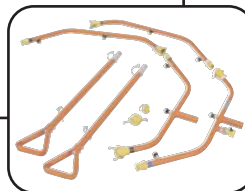

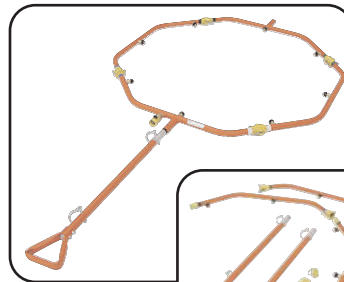

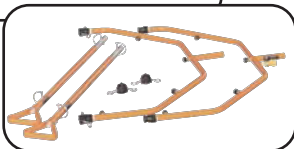

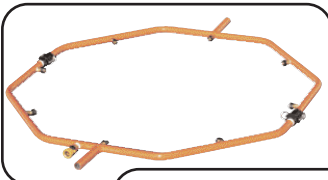

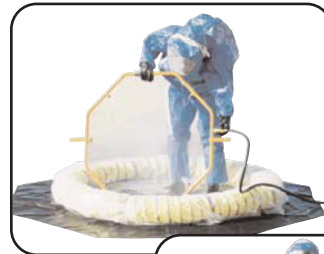

BE PREPARED FOR DISASTER!!

CEP

QUICK ERECT DECON/EMERGENCY SHELTER

Product Code	Description	
CEP-QE1014	Decon Shelter	10´ x 14´
CEP-QE1020	Decon Shelter	10´ x 20´
CEP-QE1025	Decon Shelter	10´ x 25´
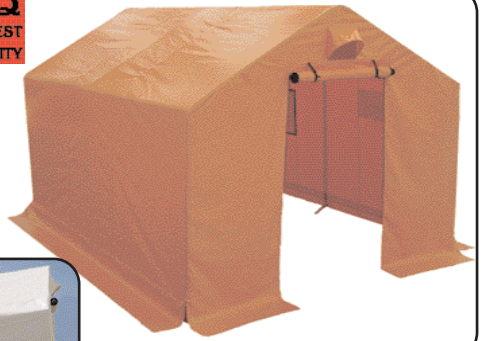

12 oz. White Rip›Stop fire retardant material.
Includes frame, cover, hardware, 2 vents, 1 window and 1 door.

Options:

HQ HIGHEST QUALITY

SHELTER HEATER

Product Code	Description
CEP-HOT VENT PRO-70	Shelter Heater

HQ HIGHEST QUALITY

- Heat output from 100ºF to 250ºF.
- 70,000 Btu system.
- Connect to any 8"-10" air hose duct.

GENERATED HEAT FOR INCIDENT COMMAND

PORTABLE HIGH PRESSURE SOAP INJECTOR

Product Code	Description	
CEP-FSI-1	H.P. Soap Injector	2 Gal Capacity

- Manually operated.
- High pressure.
- Foot pump with serrated foot treadle.
- Supply line hose: 3/8" x 10´
- Overcome line pressures to 1250 lbs.

DAT SERIES HAZMAT DECON SHOWERS

Product Code	Description		
CEP-DAT2020S	Decon Shower, One Person, Full Size	80 lbs	7' x 7' x 8'H
CEP-DAT1010S	Decon Shower, One Person, Economy Size	45 lbs	3' x 3' x 8'H
CEP-DAT3060S	Decon Shower, Multiple Personnel, Large	185 lbs	13' x 20' x 9'H

• Portable, heavy duty construction
• Rapid deployment
• Multiple models/sizes available
• No pool to roll out - no parts to assemble
• High visibility interior incorporated into all DAT series showers

Incredible stability even in high wind conditions to 70 mph plus when properly tied down

STANDARD DECONTAMINATION SHOWER SYSTEM

Product Code	Description	
CEP-HMK1101A	Standard Decontamination Shower System	95 lbs

• System includes: shower, pool, elevation grids and carry bags
• Unique quick-connects for fast assembly
• Six shower heads plus an independent hand-held sprayer
• Heavy-duty yet transports easily in two vinyl bags

CEP

Emergency Response Equipment

ISOLATION ROOM

Product Code   **Description**

CEP-IR-99   9' X 9' X 7'6" H   100 lbs
CEP-IR-910   9' X 10' X 7'6"H
CEP-IR-912   9' X 12' X 7'6"H

Specialized care can be administered while still protecting indoor or outdoor environments with our new Isolation Room. Built with a series of heat-welded tubes, air flow is maintained throughout the room making it a strong, safe structure and protected working environment. A variety of options are available, including custom sizes, carry bag, pump carry bag, additional 4" ports with lids and a complete negative flow system. Air support system not shown.

All rooms come complete with blower, non›skid floor and portholes.

ISOLATION CHAMBER

Product Code   **Description**

CEP-ISO-1   ISO CHAMBER ONLY
CEP-ISO-4   ISO-CHAMBER w/6 C2A1 (NBC) FILTERS,
                   POWER - ALKALINE D BATTERIES

CEP is pleased to add the Isolation Chamber to their product line. This chamber is perfect for hospital use when transport is needed for patients exposed to hazardous elements or life threatening events. It protects hospital staff and emergency personnel while they attend to the patient's needs. With the chemical threats of today, such as Anthrax, the Isolation Chamber greatly reduces the danger of exposure. Gurney not included.

All chambers include blower assembly, oxygen port and storage bag.

PORTABLE DIAPHRAGM HAND PUMP

Product Code	Description
CEP-MP-15	15GPM diaphragm Hand Pump
	Includes Female Nyglass quick Couplers
	and Mounting Board
CEP-P-151H	10´ x 1-1/2" Inlet Hose Assy
CEP-P-150H	20´ x 1-1/2" Outlet Hose Assy

AEROSOL FILLER CRUSHERS, HYDRAULIC WASTE & DRUM COMPACTORS

Product Code	Description
CEP-DCRUSH55	Steel Drum Compactor – 60,000 lbs. force
CEP-AEROSOLV-5000	Aerosol Can Puncture/Recycle System
CEP-WASTECOMPACT250	Bulk Waste Compactor – 60,000 lbs. force

All CEP compactors are EPA certified and offer the highest level of compactor force. T aerosol puncture and recycle systems are static resistant and ideal for proper aerosol

AEROSOL CANS DEPRESSURIZED

Product Code	Description
CEP-J-7	Can-Emitor
CEP-2001	V.O.C. Filter Kit
CEP-2002	Hose Kit with Drum Adapters

• After can is punctured, the liquid and propellant are expelled through the hose into the drum.
• Propellants escape through the vent in the lid or through the filter where hydrocarbons are absorbed.

Remains sealed at all times and will accept all sizes of aerosol cans!

CEP-PTANK300	Poly Tank 300 Gallon	22" Manhole
CEP-PTANK500	Poly Tank 500 Gallon	22" Manhole
CEP-PTANK1000	Poly Tank 1000 Gallon	22" Manhole
CEP-TC275	275 Bulk Tote	
CEP-IBCTOTE-330	IBC Bulk Container 330 Gallon	

CEP s poly tanks and bulk totes are ideal for bulk liquid storage and transfer. All sizes

HAZ MAT TRAILERS

Product Code	Description
CEP-UTRAIL16	16' Dual Axle-Bumper Pull Utility Trailer
CEP-UTRAIL20	20' Dual Axle-Bumper Pull Utility Trailer
CEP-ERTRAIL16	16' Dual Axle-Enclosed Response Trailer

HAZ MAT TRAILERS

$ SAVES YOU MONEY   **HQ HIGHEST QUALITY**

| Product Code	Description
CEP-ERTRAIL20	20' Dual Axle-Enclosed Response Trailer

CEP offers the finest line of bumper pull and enclosed emergency response trailers. All trailers are dual axle with anti›lock brakes, optional bumper goose pull and rear or side doors and ramps.

IN>LINE MULTI MANIFOLD

Product Code	Description
CEP-MM15-3	1-1/2" Inlet / 3 Valve Outlet
CEP-MM15-6	1-1/2" Inlet / 6 Valve Outlet
CEP-MM25-3	2-1/2" Inlet / 3 Valve Outlet
CEP-MM25-6	2-1/2" Inlet / 6 Valve OUtlet

NH threaded rocker lug inlet couplings are standard.

Quickly connect standard 3/4 inch hos
to hydrants, fire hoses, or fire appa

HIGH VOLUME PUMPS

Product Code	Description	
CEP-D75	Selwood High Volume Pump	5HP, 264GPM
CEP-D100	Selwood High Volume Pump	8.7HP, 528GPM
CEP-D150	Selwood High Volume Pump	38HP, 1672GPM
CEP-D200	Selwood High Volume Pump	56HP, 2640GPM

• Self prime
• Environmentally friendly
• Indefinite dry running
• Oil immersed mechanical seal
• Super silent from 58db

POSITIVE DISPLACEMENT PUMPS

	Product Code	Description	
1	CEP-PD50	Selwood Simplite Diaphragm Pump, general purpose	1HP, 48.5GPM
2	CEP-PD75	Selwood Spate Pump	3.3HP, 132GPM
3	CEP-PD100	Selwood Spate Pump	8HP, 339GPM

• Unique auto self priming.
• Environmentally friendly.
• Indefinite dry running.
• Handles oils and sludges.
• Simple maintenance.

SOLIDS HANDLING PUMPS

	Product Code	Description	
1	CEP-S150	Selwood Seltorque Pump	32HP, 1408GPM
2	CEP-S200	Selwood Seltorque Pump	56HP, 2200GPM
	CEP-S300	Selwood Seltorque Pump	106HP, 4843GPM

• Seltorque pumps for solid handling.
• Auto self priming.
• Environmentally friendly.
• Indefinite dry running.
• Oil immersed mechanical seal.

SPILL PREVENTION, CONTROL AND COUNTERMEASURES RULE

A. BACKGROUND:
• Under authority of The Federal Water Pollution Control Act (asamended by The Clean Water Act) the SPCC rule took effect on January 10, 1974. Its purpose is to prevent oil and oil-related materials from reaching navigable waters and adjoining shorelines.Parts of the original rule were unclear (i.e., container size was not specified) and compliance was expensive for small business due to the need to obtain certification by a Professional Engineer (PE). As a result, the original rule was revised in July 2002. Various extensions have taken place since then that address special cases. (See section F below).

B. SUMMARY:
• Facilities subject to the rule must prepare and implement a plan to prevent any discharge of "oil" into or upon navigable waters of the U.S. (including groundwater that leads to surface water) or adjoining shorelines. This written plan is called an SPCC Plan.
• Unlike oil spill contingency plans that address spill cleanup measures after a spill has occurred, SPCC Plans ensure that facilities put in place containment and other countermeasures that would prevent oil spills that could reach navigable waters.
• The SPCC Plan must address: (a) operating procedures the facility implements to prevent oil spills; (b) control measures installed to prevent oil from entering navigable waters (i.e. secondary containment); (c) countermeasures to contain, clean up and mitigate the effects of oil spills.

C. REGULATED MATERIALS:
• Animal oils, fats and greases (including oils from fish or marine mammals), asphalt, aviation gasoline, bunker fuel, crude oil, cutting oil/machine coolants, dielectric fluid, diesel fuel, heating oil, gasoline, greases, hydraulic oil, jet fuel, lubricating oil, mineral spirits, motor oil, naptha, natural gas condensate, oil refuse, oily wastes (other than oil mixed with dredged soil), stoddard solvent, synthetic oils, tall oil, turpentine, residual fuels, used oil, vegetable oils (including oils from nuts, seeds, fruits and kernels).

D. WHAT FACILITIES ARE REGULATED?
• Facilities with combined (indoor and outdoor), above-ground oil storage capacity (not actual gallons on site) dedicated to any of the regulated materials greater than 1,320 gallons or a completely buried storage capacity greater than 42,000 gallons must comply.
• To calculate oil storage "capacity", **all containers with a capacity of 55 gallons or more are included.**
• Overall, the Rule applies to owners or operators of facilities that drill, produce, gather, store, use, process,
refine, transfer, distribute or consume oil or oil products.

E. WHAT ACTIONS ARE NECESSARY FOR COMPLIANCE?
• All qualifying drums and tanks must have secondary containment and be included in the written Plan. **Facilities with above-ground oil storage capacity of 10,000 gallons or less are permitted to self-certify their Plan (no PE required) if they meet certain criteria related to spill history**. Secondary containment is also required for loading and unloading areas for tanker trucks and railcars. Secondary containment must be equal to the largest vessel. In the case of a railcar, the containment area must provide a means to divert a significant spill to a retention pond, oil/water separator, etc.
• The Plan must include a facility diagram, and must mark the location and contents of each container. Secondary containment must be constructed so that any discharge from a primary containment system (i.e. drum, tank or pipe) will not escape before cleanup occurs.

F. EPA HAS ISSUED COMPLIANCE DATE EXTENSIONS — WHAT DOES THAT MEAN?
• EPA has caused a great deal of confusion related to its various extensions. Soon after the 2002 rule changes were published, concerns expressed by industry focused on four (4) problem areas:
1. Qualified, oil-filled operational equipment

2. Motive power containers (e.g. vehicle fuel tanks)
3. Mobile refuelers
4. Animal fats & vegetable oils at onshore & offshore oil production, drilling facilities
The most recent extension date (currently July 1, 2009) applies only to the four (4) special cases listed above.
The July 1, 2009 date is not an extension date for general compliance with SPCC.

G. WHO MUST COMPLY AND WHEN?
• Compliance dates for facilities (other than farms) are as follows:
A facility starting operation on or before August 16, 2002 MUST Maintain its existing Plan; must amend and implement the Plan no later than July 1, 2009. Facilities in this group that do not currently have an SPCC Plan are out of compliance and are subject to regulatory action.
A facility starting operation after August 16, 2002 through July 1, 2009 MUST: Prepare and implement a Plan no later than July 1, 2009.
A facility starting operation after July 1, 2009 MUST: Prepare and implement a Plan before beginning operations.

H. OTHER SPCC-RELATED ITEMS
• An SPCC inspector is not required to provide advance notice of a facility inspection.
• Facility owners or operators regulated by SPCC must designate a person who is accountable for discharge prevention and who reports directly to management.
• In general, "transfers" of oils are regulated by SPCC; "transportation" of oil is not regulated.
Visit http://www.epa.gov/oilspill/spcc.htm to review the SPCC Regulation in its entirety.

STORMWATER MANAGEMENT REGULATIONS

A. SUMMARY:
• The National Pollutant Discharge Elimination System (NPDES) permit program controls water pollution by regulating point sources and non-point sources that discharge pollutants into waters of the United States.
• These regulations are a key component of EPA's Clean Water Act.
• The overriding goal is to protect the quality of U.S. waterways by reducing the discharge of sediment, oil and chemicals into storm drains, surface water and groundwater.

B. WHO MUST COMPLY?
Three (3) main categories must comply with the NPDES Regulations:
1. **Industrial Sites** — a diverse range of 450 Standard Industrial Classification Codes (SIC) are regulated. Visit www.Stormwater-Products.com/regs for a detailed listing.
2. **Construction Activities** — Phase II of the regulations went into effect in March 2003 and requires that construction sites on one (1) acre or more (commercial or residential) must comply.
3. **Municipalities** — Phase II requires that all municipalities with a population of 10,000 or more must comply. Regulated properties include city-owned facilities (i.e. maintenance yards, water treatment plants, refuse dumps, city parks, parking garages, marinas, etc.) and city-supervised construction activities (i.e. road work, water main repairs, landscape development and maintenance, etc.)

C. WHAT ACTIONS ARE NECESSARY FOR COMPLIANCE?
• A Stormwater Pollution Prevention Plan (SWPPP) must be filed with the state or regional EPA to receive a stormwater permit.
• The Stormwater Plan requires the use of "Best Management Practices" (BMPs) to control stormwater runoff during construction activity or as part of a long-term maintenance plan.
• BMPs that are specified in the Plan must reduce the discharge of pollutants to the maximum extent practicable (MEP), protect water quality and satisfy the appropriate water quality requirements of the Clean Water Act.
